

# Windows 7: Dial-up instructions

## What you'll need to know:

ISP phone # 278-8856

username / Email address (you selected this when you signed up for an account)

password (you selected this when you signed up for an account)

## Step one:

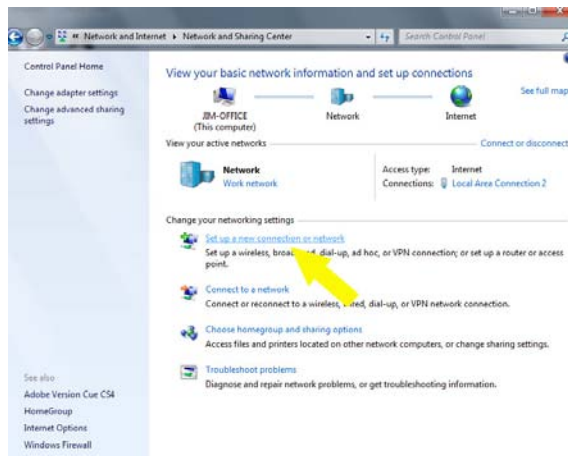

open Network and Sharing Center

<p>Click on Start Button</p> <p>Type the word "Network" as indicated below</p>  <p>The screenshot shows the Windows 7 Start menu search interface. The search bar at the bottom contains the text "network". A yellow arrow points to the search bar. The search results are displayed in a list on the right side of the Start menu. The results are categorized into "Programs (2)", "Control Panel (27)", "Documents (394)", "Microsoft Office Outlook (238)", and "Files (40403)". The "Control Panel (27)" category is expanded, and "Network and Sharing Center" is highlighted with a blue selection bar. A yellow arrow points to "Network and Sharing Center".</p>	<p>Click "Network and Sharing Center" from the search results</p>  <p>The screenshot shows the search results for "Network" in Windows 7. The results are displayed in a list on the right side of the Start menu. The results are categorized into "Programs (2)", "Control Panel (27)", "Documents (394)", "Microsoft Office Outlook (238)", and "Files (40403)". The "Control Panel (27)" category is expanded, and "Network and Sharing Center" is highlighted with a blue selection bar. A yellow arrow points to "Network and Sharing Center".</p>

## Step two

### Create Dial-up Connection

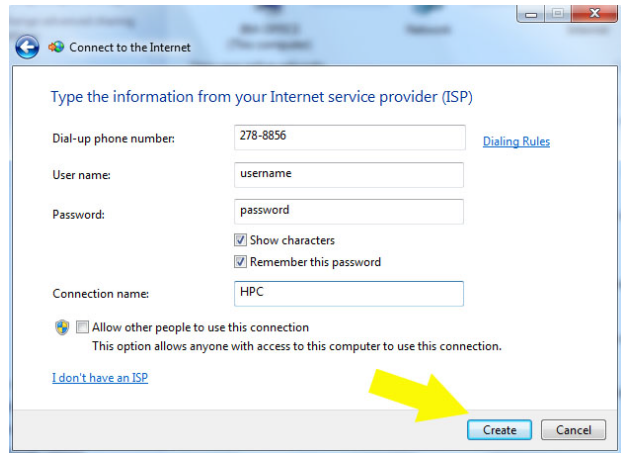

Click “Setup a New Connection or Network”

Select “Connect to the Internet” and Click Next

Select “Dial-up”

Enter the Information from the “What you’ll need to know” section of this document.

*Important:* Place a check in the “show characters” checkbox and examine the password field for mistypes or spelling errors.

When you are satisfied that the information is correct, Click the Create button.

## Step three

CONGRATULATIONS !

Once you have created you connection windows will automatically attempt to connect to the internet. You will need to have a working dial-up modem installed on your machine. Please note that most computers DO NOT come with dial-up modems.

If windows fails to connect please contact HPC support at 275-2456 Monday – Friday 9am until 7pm.
